

Press Release – ISO 9001:2008 Certificate for SWAN Systeme AG

After a period of changing and optimizing our structures and processes, we have been awarded the ISO 9001:2008 Quality Management Certificate. Mr Bienz, Lead Auditor of Swiss TS Technical Services AG, was kind enough to present us with the official document.

However, receiving the certificate is only one visible result of the entire process and our efforts. Our aim is that through this optimization, we will be able to offer even better service and solutions to our customers.

Thanks to all the employees of SWAN Systeme AG for their great support.

Below, there is a picture of the official certificate presentation.

From left to right:

CEO SWAN Systeme AG *Peter Kaminski*, EOQ Quality Systems Manager *Markus Schwendimann*, Board of Directors Member *Heini Maurer* and Swiss TS Technical Services AG Lead Auditor and Account Manager *Peter Bienz*.
